In Bosnia and Herzegovina is still establishing a legal framework for the acceptance of OECD certification system. Agricultural producers, suppliers of seeds and planting material of agricultural plants are interested to adopt the OECD certification system works better production and competitive market.

Administration of Bosnia and Herzegovina for Plant Health has launched an initiative for accession to the OECD. Require the approval of the competent authorities of the entities and the Brcko District BiH, and until now we have approval of the Federal Ministry of Agriculture, Water and Forestry and the Department of Agriculture of the Government of the Brcko District BiH

As results of IPA Twinning Project 2012 was developed OECD-scheme for cereals.
